Threads Impact 2016 Look Submission Form

ELIGIBILITY
Original textile or apparel designs suitable to be shown on the runway must be created in a DS course or independent study during the current academic year, the summer, or Spring 2015. Either the fabric or the garment must be an original design by the student. A look made from a commercial pattern will only be accepted if the textile work is original OR a written consent of instructor accompanies the submission confirming that the pattern has been altered significantly enough that it has become a new design. Work from DS 153 and 154 is eligible ONLY IF you have signed approval from Maria Kurutz verifying that you have adjusted the original pattern enough to be considered your own design. Student level in the program will be considered in the jury process.
