GENERAL EDUCATION REQUIREMENTS (GER)
The requirements in this section apply to students who first enrolled in college after May 20, 1996.

A course taken to satisfy a requirement in the GER section of the checksheet may also be used to satisfy one, but only one, requirement in another section of the curriculum.

Example: Econ 101 may simultaneously be used to satisfy the GER Quantitative Reasoning B requirement AND the Econ 101 Social Science requirement.

With proper planning, you may be able to fulfill many of the GER through courses that are required or allowed in other sections of the curriculum. Although it is possible that other combinations exist, specific courses or categories are listed below to provide you with some guidance in your planning.
